

COVID-19: Essential Business Operations

On March 22nd, 2020 an executive order was issued directing all Ohio residents to stay at home or at their place of residence and mandated the closing of all non-essential businesses except as allowed in the order. This order went into effect as of 11:59pm March 23rd, 2020.

Jet Stream International Inc., falls within the definition of essential business as defined in the executive order and we will remain open during this time. Employees are expected to continue to report to work as scheduled.

Safety is extremely important to us. As we continue to take preventative measures, we want to remind our employees and those who maybe in contact with them to please remember to continue to wash your hands, use hand sanitizer, wipe down work surfaces and maintain social distancing whenever possible.

Facility Visitors

For your health and safety, and the safety of our team members we are restricting physical access to our offices.

If you have deliveries to be made, they should be delivered to the same locations as you are accustomed to. Delivery drivers should not enter the building any further than required to make the delivery. Further instructions will be posted at location of delivery. At all times please follow the CDC recommendations including keeping a minimum of six feet from one another when possible.

Whenever possible communication should be done by email, telephone or send by regular mail.

Most office personnel will be working from home at this time. Following the above suggestions will allow us to assist you while complying with requests for social distancing and the recommendations given by Federal, State and Local Governments.

Be assured, we are available by phone and email for calls and communication during this time. We appreciate your cooperation, and we remain committed to providing the same service, quality and value you have come to expect.

Sincerely,

The Jet Stream International, Inc. Team
